

# DECKER MACHINE WORKS

Precision Manufacturing Since 1982

Decker Machine Works, Inc., is a family-owned and operated precision manufacturing company with over thirty years of experience making ultra-precision machined parts to exacting customer specifications. Our capabilities include CNC turning up to 300mm in diameter as well as Swiss-type CNC machining using Citizen turning centers, which we employ to manufacture complex machined parts up to 35MM in diameter. We also provide 4 axis milling, Surface, cylindrical & center-less grinding, Wire EDM, Forming & Assembly.

Customers from all sectors of industry rely on our proven build-to-order capabilities to manufacture a wide array of parts, including those with high degrees of complexity and tolerances as small as 50-millionths-of-an-inch.

Our highly skilled machinists work across a full spectrum of materials, from polymers to super-alloys, including all high temperature and thermocouple alloys, refractory metals, titanium, ceramics, and graphite. We stock most alloys and are capable of certifying materials from DFARS- and RoHS-compliant vendors upon request.

Decker Machine Works delivers contract manufacturing services with best-in-class quality and service. We have been certified to ISO 9001 quality standards since 2015, and we endeavor to be in compliance with all statutory and regulatory requirements applicable to our industry, as part of our commitment to quality.

## CAPABILITIES:

- CNC Milling
- CNC Turning
- Swiss Turning
- Wire EDM
- Grinding
- Forming and Assembly

## SUPPORTED MATERIALS:

- Aluminum
- Steel
- Stainless Steel
- Titanium
- Magnesium
- Brass
- Bronze
- Tungsten
- Inconel
- Kovar
- Invar
- Silver
- Platinum
- Acrylite
- Acetal
- Teflon
- Polycarbonate
- Polypropylene
- Ultem
- Polyimide
- PVC
- PEEK
- And much much more!*

## FAST FACTS:

- Year Established: 1982
- Number of Employees: 24
- Location: Greenfield MA
- ISO 9001:2015 Registered
- DFARS and RoHS Compliance
